Quick Start Guide

### Overview

**BRX01 HD** streams the highest quality audio wirelessly from your Bluetooth enabled device to any music system or powered speakers. It is a true high fidelity audio component that uses high-end Qualcomm® aptX™ HD, aptX™ LL, aptX™ and AAC audio streaming codecs and audiophile grade DAC to unleash all the clarity, crispness and full emotional impact your Hi-Fi stereo system can deliver. Unlike standard Bluetooth receivers, BRX01 HD provides ultimate wireless freedom with the longest wireless range.

## KEYS AND PARTS

## QUICK SETUP

Setup and pairing is really easy. The following instructions will help you connect **BRX01 HD** to your music system and pair with your tablet, computer or smartphone.

**Step1:** Connect audio cables from **BRX01 HD** rear panel to your music system audio input.

**Step2:** Connect a power adapter to **BRX01 HD** with the included power supply cable and plug the power adapter into an AC outlet.

**Step3:** **BRX01 HD** will automatically “Power ON” and go into discoverable / pairing mode. The LED light will start flashing to indicate the unit is now ready to be paired.

**Step4:** Turn ON Bluetooth on your device and go to Bluetooth preferences.

**Step5:** Scan listed Bluetooth devices and select “**BRX01 HD**” to pair and connect. The LED indicator should turn solid.

**Step6:** Make sure your Hi-Fi audio system is turned on and the proper input source is selected.

**Step7:** The music on your smart device will now play through your Hi-Fi audio system! **BRX01 HD** can connect to one smart device at a time, but is capable of remembering up to 8 devices. Automatically connects to the last paired device.

# TROUBLESHOOTING TIPS
