RADIO OPERATIONS

FM/WB

- Turn the power switch to the “ON” position at the back of the unit.
- Select FM/WB with tuning knob, extend the antenna to get better signal.
- Rotate the tuning knob to select a channel, channel indicator stays red when a channel is properly selected.

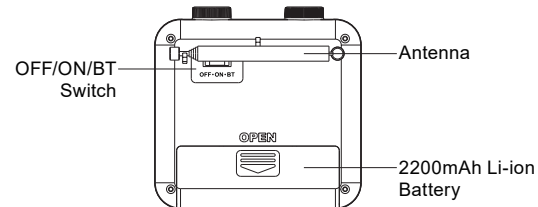

NOTE: Please be gentle with the tuning knob and FM/WB band selector, thanks.

BLUETOOTH SPEAKER

- Turn the power switch to “ BT ”
- A pair of beeps will be heard after 3s. At the same time, the Bluetooth indicator will flash.
- Turn on the Bluetooth device such as a mobile phone to find the name of “MD-050” and click it to connect.
- When is connected, there will be a beep and the indicator will stay blue,open the music player to listen to music. Then the indicator will flash.
- After disconnected the Bluetooth, there will be a beep and the Bluetooth indicator will flash.

NOTE: To ensure the sound quality of Bluetooth, the best reception distance is within 10 meters.

USB CHARGING

- To charge the radio, insert the supplied USB cable to the power source.
- The charging indicator will stay red. After fully charged, the red light will turn off.
- It takes 8 hours for the internal 18650 2200mAh battery to be fully charged.
- When completely charged, the battery will deliver 9 hours of radio play (depending on the volume) or 8 hours of Bluetooth speaker time.

RECHARGEABLE LI-ION BATTERY

- Remove battery compartment cover (at the back) insert 2200mAh Li-ion battery. Ensure the negative (-) end is placed against the spring.
- The Li-ion battery can be replaced if the battery is completely drained.
